#### Amarillo Should Be Open Shop City Says M. C. Nobles

en to the question. What would Amarillo be like if you could have your way?" when asked by the Beard of City Development:

. (By M C Nobles) The first, and likely the hardest lask would be to get the citizens of Amarillo to realize the importance of eaving self out, and all work as near ly as possible to one end, that of building a great manufacturing center. We have the railroad facilities, abundant and cheap fuel, raw material accessible, such as votten and wood for mills. and factories of that class; grain of all kinds for manufacturing food prodsets; clay and rock of all kinds, house for pucking plants; inexhaustible supply of rock sait and sait water " manufacturing sait. But we can not do much in city building as long as each individual and class is haking out for self.
